

# Commenting On Websites

Dear Parents,

I am the new Technology Integration coach. Each class has a continually updated website to share learning with you. Please find a link to your child's class website on the right side of this document. We hope you find them a great resource that helps you become more involved in the classroom community and your child's learning. As you begin communicating through the blogs we'd like you and your child to follow some conventions. These will also be discussed in class with students.

## Commenting

Only use first names when commenting on a website. You can also add your child's name in brackets to help a teacher recognise you, e.g. *Bob (Sam's dad)*. Students will also be following the rule of first names only. We don't allow anonymous posts as we believe in modelling creating positive digital identities for our students and taking ownership of our online voice.

You do not need to fill in the email or website address box when commenting.

All comments will be approved by a class teacher, however this is a good opportunity for you to talk with your child about appropriate use of the internet and develop some family guidelines with regards to computer use at home. Class teachers will be developing commenting guidelines with students and modelling digital citizenship through these websites.

## Personal Information

Personal information such as surnames, telephone numbers and home addresses should not be shared through the websites. This is best done in person or can be found in the Veracross directory.

## Class Password

You are welcome to share the class password with your family and child's friends to create a more holistic online learning experience. We also welcome positive comments from them too.

We hope that you enjoy our websites. As HKA is a community of learners we look forward to seeing your positive and supportive comments to our students. Your comments will help your child's progress in many ways. If you have a question please email me.

Regards,

Claire Williams
